ADDITIONS TO THE TREE OF KNOWLEDGE

A Message From The Principal

Welcome back to the 2021-2022 school year! I hope that by the grace of Allah you are healthy and well, and were able to enjoy special times with loved ones over the summer break. It is an honor to serve you as the Principal of Ahmadiyya Muslim School. This year, I am delighted to welcome several new staff members to the AMS team.

I am pleased to introduce our teaching staff which includes Ms. Faakhra and Ms. Saeeda in junior and senior kindergarten, Ms. Husbana and Ms. Amtul in grade 1/2, Ms. Nidda, Ms. Zahida in grade 3/4 and Ms. Bolanle in grade 5.

We are grateful to have such a knowledgeable and dedicated team to support our students.

Allhumdullilah November 16 marked the anniversary of the first year of operation of AMS. By the sheer grace and blessings of Allah we have witnessed countless blessings over this past year.

- **December 17th**
Last day of school
before Winter Break

I would like to express my gratitude to all of you for supporting AMS. Insha'Allah in the coming years we will witness further growth and success. Please remember the school and all those who support the school in your prayers. May Allah makes this school a blessed one and may he continue to shower his blessings on it. Ameen

I look forward to a productive partnership with our families this year, as I believe that a strong home and school connection is essential to each students' academic and social/emotional success.

ADILA MUNIR

Grade in Spotlight - Grade 5

Language Arts

Grade 5 students have been busy learning about the elements of story writing. We have been busy practicing the different elements of the story. Students have started to write a story using a character they have created with tinfoil. Lookout for the published book coming soon!

Social Studies

We began our race across Canada through the Amazing Race Canada challenge. Students are going through different challenges for each of the regions of Canada to be the ultimate winner!

Math

We started the year off by looking at ways to represent numbers. Using our understanding of number sense we now have been looking at different multiplication and division strategies. Students will use this understanding to complete word problems.

Science

We have been exploring what electricity is and how it works through various experiments. Students have been building circuits to turn on a light bulb using alligator clips, batteries and light bulbs. We will be putting our learning into practice by designing a burglar alarm system and an electric powered vehicle.
